

## Your Local, Dedicated Claims and Safety Team

Beacon Mutual has the largest, most experienced team of Claims and Safety Professionals in the state with in-depth knowledge of the RI workers' compensation system. Our Claims Professionals, Safety Consultants, Ergonomists, and Nurse Case Managers work together to keep your employees safe and return them to work when an accident happens.

We are your local RI workers' compensation experts! The importance and value of local service cannot be overstated. Because Rhode Island is our home, we can respond to your needs with an extraordinary level of speed, efficiency, and personalized attention.

### You can count on your Beacon Mutual team to work tirelessly on your behalf to:

- Help you keep your employees safe at work
- Ensure injured employees receive the best possible care both pre- and post-injury
- Support injured employees to stay at work and return to work safely and quickly
- Minimize the impact of an injury on your business

# Claims Safety Services

Experience is the Difference

## Claims Services

Our Claims Professionals are the best at what they do—from investigating claims to partnering with you to help your injured employee get the best possible care and return to work safely and quickly. Our expertise includes the best legal defense counsel in the state to resolve disputes and protect your interests.

### Early Intervention Program

Our early intervention approach reduces days injured employees miss from work, mitigating the impact of an injury on your business. Our team of dedicated Disability and Nurse Case Managers advocate for your injured employee—coordinating their care and their ultimate return to work.

### Best in Class Medical Management Programs

We partner with the best of Rhode Island's medical providers to ensure your employee receives exceptional and expedient care through our Preferred Provider Network (PPN). Our Prescription Program features an extensive pharmacy network so your injured employee gets the medications they need with no out-of-pocket expense.

### Stay-at-Work/Return-to-Work

Our team will engage with you to design a tailored holistic plan to help keep your injured employees on the job and return them to work safely and quickly to minimize the burden of employee absence on your business.

## Safety Services

Beacon Mutual is serious about the safety of our customers' employees. We provide a wealth of safety programs at no additional cost.

### Safety Consultation

Our Safety Consultants will help make your workspace as safe as possible for your employees. We will work with you to craft a custom and sustainable safety program based on your specific needs including equipment recommendations, safety plans, safety committees, dosimetry testing, and more.

### Safety Training

Beacon Mutual offers the most expansive, free safety training curriculum in the state through a combination of in-person and online opportunities. Each year, we certify hundreds of employees through our OSHA and Defensive Driving training programs.

### Ergonomic Services

Our Certified Ergonomists will work jointly with you and your employees to maximize their comfort and prevent workplace disruption. If an injury occurs, we will provide practical and proven solutions to help your employee return to work in the safest and most productive way possible.

Beacon has over 30 years experience providing workers' compensation solutions to Rhode Island businesses.
